

## Summer Series #8, August 11, 2020

So we have reached the last of the Summer Series runs for 2020. Results are below. This was a team predicted time run. Teams were generated at random. Runners time differences were combined to get a team difference and results were based on that. Series results will be up on the club site soon after Bob runs that set of numbers. An informal look at this season and we held 3 actual runs for the 8 in the series. Of the 3 actual runs about half of the runners ran virtual with half showing up for the live run. Overall we had lower participation than previous years.

I am glad we could get a series completed. I really look forward to next year and something more normal, for running and for life in general. On that note the president message is updated on the club website,

Thanks to all who supported this season in various ways.

This Saturday in the Covid 19, 5K in Littlestown. An older entry form is

at <http://sprrhanover.org/localraces.html> with the important information the same.

Run safe
